2006   *Santa Barbara, CA, US*

Major: Paralegal Studies

Online Classes

Front-End Web Development - Udacity
2015

WordPress Web Development - Skillcrush
2015

Projects

Portfolio
July, 2015

Created a responsive portfolio for FUTURE work. Upon clicking, individual project images pop up with the project description. Technologies used: HTML, CSS, JS, Bootstrap.

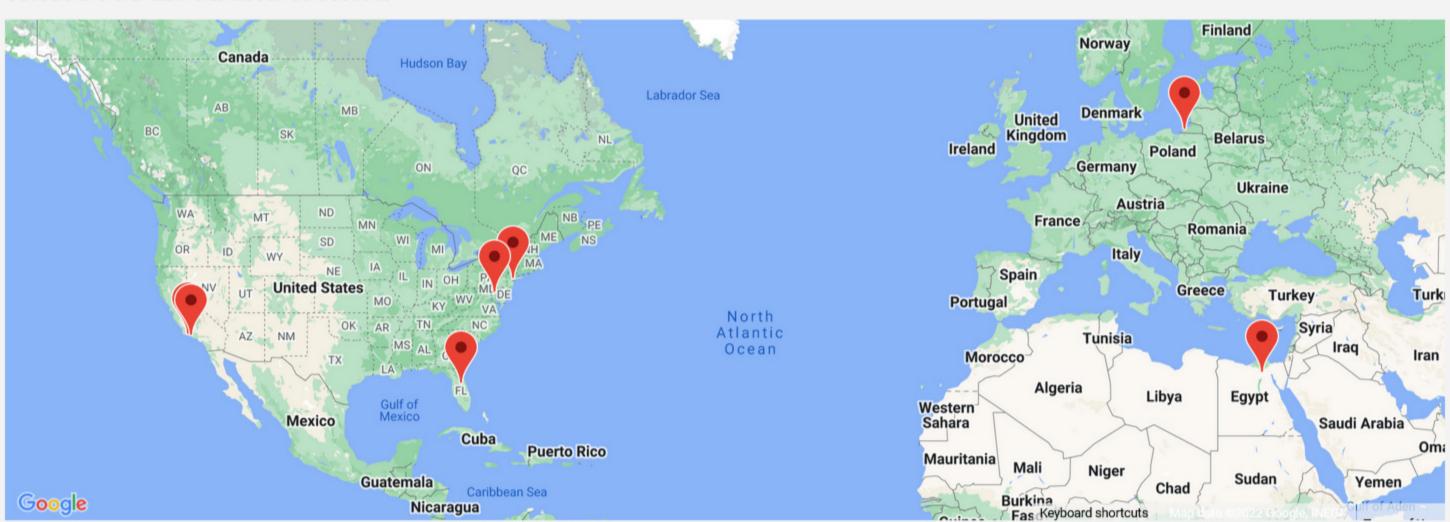

WordPress WebSite
June, 2016

Created and customized a website for an imaginary marketing company. Imported their blog from Blooger, fixed the imported images. Configured WP theme and widget area, created a child theme, created Case Studies using Custom Post Type, installed Advanced Custom Fields and displayed them on my pages, added case studies to the homepage and created custom archive, added featured work to the homepage, created a contact page and other content and hero images. Technologies used: WordPress, HTML, CSS.
